## 23.302 Hazardous material identification and notice of material safety data.

- (a) The Occupational Safety and Health Administration (OSHA) is responsible for issuing and administering regulations that require Government activities to apprise their employees of-
- (1) All hazards to which they may be exposed;
- (2) Relative symptoms and appropriate emergency treatment; and
- (3) Proper conditions and precautions for safe use and exposure.
- (b) To accomplish this objective, it is necessary to obtain certain information relative to the hazards which *may* be introduced into the workplace by the *supplies* being acquired. Accordingly, *offerors* and contractors are required to submit *hazardous materials* data whenever the *supplies* being acquired are identified as *hazardous materials*. The latest version of Federal Standard No. 313 (Material Safety Data Sheet, Preparation and Submission of) includes criteria for identification of *hazardous materials*.
- (c) Hazardous material data (Material Safety Data Sheets (MSDS)) are required-
- (1) As specified in the latest version of Federal Standard No. 313 (including revisions adopted during the term of the contract);
- (2) For any other material designated by a Government technical representative as potentially hazardous and requiring safety controls.
- (d) MSDS's must be submitted-
- (1) By the apparent successful *offeror* prior to contract award if *hazardous materials* are expected to be used during contract performance.
- (2) For agencies other than the Department of Defense, again by the contractor with the *supplies* at the time of delivery.
- (e) The *contracting officer shall* provide a copy of all MSDS's received to the safety officer or other designated individual.
