## **225.7019-1 Definitions.**

As used in this section—

Covered military installation means a military installation in Europe identified by DoD as a main operating base.

*Furnished energy means* energy furnished to a covered military installation in any form and for any purpose, including heating, cooling, and electricity.

*Main operating base* means a facility outside the United States and its territories with permanently stationed operating forces and robust infrastructure.

**Parent topic:** 225.7019 Prohibition on use of certain energy sourced from inside the Russian Federation.
