## 236.606-70 Statutory fee limitation.

- (a) The statutes at 10 U.S.C. 7540, 8612, and 9540, for the Departments of the Army, Navy, and Air Force, respectively, limit the contract price (or fee) for architect-engineer services for the preparation of designs, plans, drawings, and specifications to 10 percent of the project's estimated construction cost.
- (b) The 10 percent limit also applies to contract modifications, including modifications involving—
- (1) Work not initially included in the contract; apply the 10 percent limit to the revised total estimated construction cost; and
- (2) Redesign work; apply the 10 percent limit by—
- (i) Adding the estimated construction cost of the redesign features to the original estimated construction cost;
- (ii) Adding the contract cost for the original design to the contract cost for redesign; and
- (iii) Dividing the total contract design cost by the total estimated construction cost. The resulting percentage may not exceed the 10 percent statutory limitation.
- (c) The 10 percent limit applies only to that portion of the contract (or modification) price attributable to the preparation of designs, plans, drawings, and specifications. If a contract or modification also includes other services, the part of the price attributable to the other services is not subject to the 10 percent limit.
